Subject: Sauget Area 1, Site G

After extensive and exhaustive research with many people, the mystery of this site in WasteLAN/CERCLIS has finally been solved. The site was already established under the name DEAD CREEK AREA G. The 12-digit ID is ILD981953623. The 2-digit spill ID is 8E. The address is Queenly Avenue, Sauget, IL.

So from now on, you guys should call this site by its already established name to avoid confusion. Sam, see Arlene if there are any further problems with this!
